**FEATURES:**

Our Alt Penedès vineyards are 375m above the level sea, calcareous and muddy lands. Lands are south side and they are affected by the dry northern wind and caressed by the wet and warm wind of the sea.

**NOTA DE CATA:**

**VISUAL:** Bright straw color.

**NOSE:** The Sauvignon variety gives us a fruit fragrance. Also it remembers a lily flower, green fruit, wet grass, citric flowers and banana

**MOUTH:** Input with little note of natural carbonic fermentation that remembers the sparkling wine. It has a round fragrance, where in a few moments we can notice clear notes of ripe fruits. The varieties of macabeu and parellada remember us the melon and banana. Finally, the bottom of the mouth has a dry taste, with hints of wood and green almond.
